

Portfolio

Eventually I'll finish this, but here's a list of sites I've done (or are in progress): //dopestone.org //flacswap.com //dailylisten.net //joemehl.com //abovethelies.com //cookbrandon.com

Unfortunately most of my real work I've done I can't link to (stupid NDAs), but I'll give a hint to those of you that know me well (maybe someday I can list them)://d*****m*****t*****.com//shift-**.com There's a few more, but I'm lazy right now - seriously. Check again soon.
